KEY SKILLS

- Competence in internet researches
- Skillful Cybersecurity Expert
- Strong analytical skills
- Excellent team player
- Leadership
- Remote worker
- Listener
- Innovator
- Risk management
- Vulnerability assessment
- Malware analysis
- Data analysis
- Server Management
- Server Administrator
- Proven problem solving and numerate skills
- Penetration Tester

TOOLS AND PROGRAMMING LANGUAGE

- **Operating Systems:** Windows, Linux
- **Security Tools:** Kali Linux, Parrot OS, Buscador, Burpsuite, Accunetix, Meltasploit, SQLmap, Hajiv, Xenotix XSS, OWASP ZAP proxy, Nessus, Wireshark, Nmap, Urlcrazy, Maltego, Golismero, Xplico, Binwalk Wpscan, Httrack, Joomscan. Networkminer, Webcruiser.
- **Languages:** Python, Java, PHP, Javascript, C++
- **DBMS:** MySQL, MS-SQL
- **Web Technologies:** HTML, XML
- **Web and Mobile frameworks:** Django, Flutter

TECHNICAL PRESENTATION

- **Introduction to python for cybersecurity, (Python Minna.)** **May, 2018**
- **Blockchain technology the next big thing, (Malhub Tech Meetup.)** **Dec, 2017**
- **Introduction to cybersecurity, (FEMTECH.)** **Dec, 2015**

ACCOMPLISHMENTS

- **Cyber Security Challenge Nigeria (CysecNg):** Winner, As the ultimate CYSECA 2018.
- **NaijaSecCon 2018:** First Runner-up in National Cybersecurity Capture the Flag (CTF) Competition.
- **HackInstabul:** Capture the Flag (CTF) Competition.
